

**Double Senses. Zero Misses.**

Leveraging state-of-the-art Infrared, Ultrasonic or Dual-Technologies, our ultra-sensitive occupancy sensors offer you the ultimate in reliable, efficient and cost-effective indoor lighting control.

## Product Benefits

- Combination of Infrared and Ultrasonic detection technologies\*
- Simple programming by Infrared remote controller\*
- Dual loading\*
- Delivers measurable energy savings
- Suitable for different lighting load (incandescent lamp, AC halogen lamp, LV halogen lamp, fluorescent lamp)

\* Selected models, please refer the product specifications

## About Schneider Electric

As a global specialist in energy management with operations in more than 100 countries, Schneider Electric offers integrated solutions across multiple market segments, including leadership positions in energy and infrastructure, industrial processes, building automation, and data centres/networks, as well as a broad presence in residential applications. Focused on making energy safe, reliable, and efficient, the company's 114,000 employees achieved sales of more than 18.3 billion euros in 2008, through an active commitment to help individuals and organizations "Make the most of their energy".

The Installation Systems & Control Division of Schneider Electric provides solutions that represent the best in lifestyle and innovation for offices, hotels and homes. These solutions include award-winning products in the areas of building and home automation, structured cabling, and designer switches and sockets. They help the finest architectures around the world to achieve more with less.
